regional issues and the survey recently completed by the Member's governing boards, managers, and staff. The Board will establish priorities today and the VPPSA staff will follow-up by turning the priorities into strategic goals on Tuesday, July 20th.

Mr. Blodgett began by asking for introductions from those in attendance followed by a review of national industry trends - those include: an increase in utility regulation as well as power supply, aging infrastructure, grid security, tax-exempt financing, and the effects of the recent COVID-19 pandemic.

The General Manager indicated that many of the national trends are consistent with those on a State and local level. Specifically, the pressures on Affordability, Reliability, Responsiveness, and Local Control. The General Manager also reviewed examples of what other Joint Action Agencies are offering their member utilities; such as MRES, Electricities, OMPA, and IMPA.

The General Manager shared the VPPSA survey results and the status of the 2021 Strategic Plan.

The group recessed for lunch.

Mr. Blodgett indicated that the intent of the afternoon session is to be a brainstorming session with the goal of building an action plan. The Board discussed strategic priorities and came up with the following additions and modifications to the 2022 Strategic plan:

- Value of Public Power position paper/education campaign plan
- Customer friendly website/data to support
- Skill sets/Personnel, Staff/Board Committee
- Bylaw/Charter update, first right of refusal on member sale
- Modify Board member attendance goal
- Change "add" to retain existing membership

The Board was comfortable with the proposed changes/additions to the 2022 Strategic Plan and having the VPPSA staff discuss these in further detail to develop more defined goals.

Director Jones motioned to adjourn, seconded by Director Humphrey. The meeting was adjourned at 3:56 p.m.

Respectfully submitted,

Amy Parah
