

Vermont Public Power Supply Authority

## **GIS Technician**

The Vermont Public Power Supply Authority, located in Waterbury Center, Vermont is seeking a GIS Technician to join our team. This position will manage the administration of the Authority's ESRI based mPower GIS mapping software, assist in data collection related to member utility electric and water system maps, perform map data confirmation and input, and mapping related analytical functions.

Primary functions include: Act as the administrator for the GIS mapping system including managing member accounts, collect, or work with member staff to collect field data as needed, assist members in developing and maintaining adequate policies and procedures related to mapping data, perform map updates using mPower ESRI based GIS software, perform validation of data input by member field staff, maintain integrations between the GIS system and other electronic data sets, and the development of map data related and other analytical queries for further analysis and reporting.

Demonstrated knowledge of Geographic Information Systems, utility field operations and database management equivalent to completion of two years of college and one to three years of progressively responsible related experience preferably in a utility operating in a fully regulated environment.

VPPSA is building a team of professionals who are passionate about helping Vermont communities meet their future energy needs. If you are a team player and enjoy a fast-paced collaborative environment we want to hear from you. Please send resumes and salary requirements to: Vermont Public Power Supply Authority, PO Box 126, Waterbury Ctr., Vermont 05677 Attn: General Manager, or to [knolan@vppsa.com](mailto:knolan@vppsa.com). The position will be open until filled.
