

# **Regular Board of Directors Meeting**

9:30 AM, November 4, 2020 5195 Waterbury-Stowe Road, Waterbury Center, Vermont 05677

CALL IN NUMBER: 1-773-231-9226

**MEETING ID: 8022447678#** 

HTTPS://MEETINGS.RINGCENTRAL.COM/J/8022447678

#### **Directors**

| Vacant, Barton             | Jonathan Elwell, Enosburg | Mike Sullivan, Hardwick    |
|----------------------------|---------------------------|----------------------------|
| Pamela Moore, Jacksonville | Meredith Dolan, Johnson   | Thomas Petraska, Ludlow    |
| Bill Humphrey, Lyndonville | Penny Jones, Morrisville  | Steve Fitzhugh, Northfield |
| John Morley III, Orleans   | Reg Beliveau, Swanton     |                            |

#### **Agenda**

Allotted number of minutes set forth in bold type after each item

- 1. Call to Order
- 2. Consideration of changes/modifications to agenda (3)
- 3. Public Comment (2)

#### **Action Items**

- 4. Minutes of the 10/07/2020 Regular Board of Directors Meeting (3)
- 5. Monthly Financial Report for period ending 09/30/2020 (Crystal) (10)
- Glavel Incentive Resolution (Ken N) (10)
- 7. Project 10 Backup Generator Bid Award (Dave G.) (15)

#### **Discussion Items**

- 8. Custom RES Tier 3 Policy (Ken N) (15)
- **9.** FY21 Budget Review (Ken N) **(45)**
- **10.** Retail Sales Data Tracking & Reporting Presentation (Amanda) (30)
- 11. Legislative/Regulatory (Melissa) (10)
- **12.** AMI Update (Ken S.) **(10)**
- 13. Barton Status Update (Ken N.) (10)

#### **Executive Session**

- 14. Broadband Update (Ken N) (5)
- 15. Potential 5-year Power Supply Purchase (Shawn) (20)
- 16. Barton Hydro Update/Discussion (Ken N) (15)

#### <u>Other</u>

17. Other Business (5)

#### CC:

| <b></b>                   |                                |
|---------------------------|--------------------------------|
| Tin Barton-Caplin, Barton | Clayton O. Bailey, Lyndonville |
| Gary Denton, Enosburg     | Sheilah Evans, Morrisville     |
| Vacant, Hardwick          | Jeff Schulz, Northfield        |
| Mac Butova, Jacksonville  | Marilyn Prue, Orleans          |
| Scott Meyer, Johnson      | Lynn Paradis, Swanton          |
|                           |                                |

# Regular Board of Directors Meeting Minutes

October 7, 2020

#### **Board of Directors:**

|   | Vacant, Barton             | Р | Bill Humphrey, Lyndonville   |
|---|----------------------------|---|------------------------------|
| Р | Jonathan Elwell, Enosburg  | Р | Penny Jones, Morrisville     |
| Р | Mike Sullivan, Hardwick    | Р | Stephen Fitzhugh, Northfield |
|   | Pamela Moore, Jacksonville | Р | John Morley, Orleans         |
| Р | Meredith Dolan, Johnson    | X | Reginald Beliveau, Swanton   |
| P | Thomas Petraska, Ludlow    |   |                              |

X indicates attendance in person, P indicates attendance by phone.

**Alternates present:** 

| Sheilah Evans, Morrisville (P) | Lynn Paradis, Swanton <b>(P)</b> |
|--------------------------------|----------------------------------|
|                                |                                  |

Others present:

| Ken Nolan, VPPSA - (X)            | Crystal Currier, VPPSA - <b>(P)</b> | Ken St. Amour, VPPSA - <b>(P)</b> |
|-----------------------------------|-------------------------------------|-----------------------------------|
| Julia Leopold, VPPSA - <b>(P)</b> | Melissa Bailey, VPPSA - <b>(P)</b>  | Amy Parah, VPPSA - <b>(X)</b>     |
| Steve Farman, VPPSA - <b>(P)</b>  | Alex Nicholson, VPPSA - <b>(P)</b>  |                                   |
|                                   |                                     |                                   |

#### Numbers in bold type correspond with agenda item numbers:

- 1. Chairman Beliveau called the meeting to order at 9:32 a.m.
- 2. Chairman Beliveau asked if there were requests for changes and/or modifications to the current agenda. The General Manager requested an executive session to discuss contract negotiations.
- **3.** Chairman Beliveau asked if there were public comments and/or individuals who would like to address the Board. There was no public in attendance.
- **4.** Director Fitzhugh made a motion to accept the minutes of the Regular Board of Directors meeting held on September 2, 2020. The motion was seconded by Director Jones. Motion approved.
- **5.** Director Fitzhugh made a motion to accept the Treasurer's report as of August 31, 2020. The motion was seconded by Director Jones. The Controller provided a brief update related to the operational budget vs. actual summary of VPPSA's operational costs for the period ending August 31st. The financial results indicate operational expenses being under-budget by approximately

#### **DRAFT**

12.9%. This includes payroll and overheads that are under-budget by 11.7% and office supplies and expenses that are under-budget by approximately 15.9 %. The primary drivers related to the under-budget results include: Payroll and OH's for the GIS Technician and Manager of Field Services; conferences/travel/building maintenance/legal. These costs are offset by an overbudget results in bank fees (LOC), outside services and computer hardware/software (specifically cyber security) costs. Similar to the under-budget results for expenses, it is also expected that revenues will be under-budget. This is due to the fact that a portion of the Field services position was expected to be paid directly by the Village of Barton and Ashland Electric. It is expected that this trend will continue for the remainder of the year.

The motion to approve the Treasurer's report for the period ending August 31, 2020 was approved.

**6.** Director Fitzhugh made a motion to accept Resolution 2020-10 related to the financing of the purchase of member units offered by Vt. Transco, as presented. The motion was seconded by Director Sullivan.

The Controller reminded the Board that the subscription agreements related to the Vt. Transco equity offer that will occur in December have been sent to all the members and that it was requested that the agreements be returned no later than Monday, November 30th. It was noted that VPPSA expects to finance approximately \$669,000 for the benefit of the members. Resolution 2020-10 provides for the financing in an amount not to exceed \$1,333,050, which is the total offered to all VPPSA members. It was noted that three lenders provided proposals for the financing. The motion was approved.

7. The General Manager reminded the Board that both VPPSA and the Village of Swanton received notices of violation of Wetlands permits last fall from both the Army Corps of Engineers and the Vermont Department of Environmental Conservation. Initially, it was agreed to hire Fitzgerald Environmental Consulting to assist with the violation response and share the costs. The General Manager provided some background information to remind the Board of the specific issues and noted that all the parties have spent several months evaluating options and trying to determine the most cost-effective way to proceed. This effort has resulted in a plan that involves a combination of returning the wetlands to their previous status where possible, moving the Swanton compost facility to minimize the impacts and in a few cases paying a fee to retain the impacts. Once the process is complete, the responsibility for the wetlands permit would transfer to Swanton so VPPSA would not have any further responsibility.

Director Humphrey made a motion to authorize the General Manager to enter into an agreement with the Village of Swanton that resolves the Wetlands Permit notice of violation consistent with the arrangement as presented. The motion was seconded by Director Fitzhugh. The motion was approved.

Director Sullivan requested some additional background/history and that was provided by the General Manager and Chairman Beliveau.

**8.** Julia Leopold, VPPSA's Communication Specialist informed the Board of recent conversations with the Vermont Foodbank regarding the number of food insecure people in Vermont and the fact that the Foodbank is not seeing the program uptake consistent with the levels of food insecurity. The Vermont Foodbank would like to work with the VPPSA utilities to spread the message outside of Chittenden County by providing bill stuffers that the utilities can send to their customers. The Vermont Foodbank will design the bill stuffer and cover all costs and the utilities are only asked to send the information out with their periodic billings. Director Birkett expressed concern with sending out bill stuffers that are not related to utility business but expressed

#### DRAFT

willingness to include the information within their public newsletter or other community publications.

Director Beliveau and Director Jones expressed comments relative to whether the use of bill stuffers is effective, the process of inserting and sending non-utility bill stuffers to their customers, and that the use of other avenues such as social media (Facebook or front-page-forum) might be more productive forums to reach customers. Ms. Leopold indicated she would follow-up with the Vermont Foodbank with the Board's comments to determine next steps.

**9.** The General Manager reminded the Board that VPPSA has been operating the RES rebate (prescriptive) program for about 2 years and it has become clear that the program is only meeting about 1/3<sup>rd</sup> of the member's Tier requirements. A brief overview of the current measures that are being utilized and their related costs was discussed, along with the potential to enter into lower-cost custom projects. Two specific projects – a furniture manufacturer that runs on local generation and a glass recycling business that want to locate in a member territory was discussed. It was noted that the host utility will receive the electric sales; however, all the VPPSA members would share in the RES project credits. The General Manger requested feedback from the Board regarding this concept. There was a brief discussion regarding the use of VPPSA funds and conceptually the Board was supportive of the program as presented.

Director Humphrey asked who would choose the various projects that would be supported (the Board/ Board Committee, Staff?). Director Fitzhugh suggested providing staff with a limit to work within - either in project cost or a dollar cost/per credit and the Board was supportive of that. It was determined that staff will provide a detailed program concept for Board action at the November meeting.

- 10. The General Manager presented the first draft of the FY2021 Budget. It was noted that several areas still require refinement and that the budget will be refined further after feedback from this meeting and once additional data is received from other parties (McNeil, AMI, etc). A brief overview of the consolidated budget results were reviewed; with a more detailed review of the RES budget discussed. It was noted that, a number of the variances are related to a reallocation of VPPSA's efforts in relation to the approved strategic plan, resulting in several VPPSA projects seeing reductions while the general operating budget is seeing an increase. The General Manager reminded the Board that this information is the initial draft and as the budgets are refined further, future updates will be presented in November and December, with Board approval requested in December.
- 11. Melissa Bailey, VPPSA's Manager of Government Relations, provided an update on recent Legislative and Regulatory activities. It was noted that the Vermont Legislature recessed September 25<sup>th</sup>, with its final efforts focused on the budget and additional response measures related to the pandemic. A review of PUC proceedings and the Efficiency Vermont Coordination and Tier 3 Planning was reviewed and discussed. A specific focus on the disconnect moratorium, PDS changes to the arrearages program, and the efforts with EVT was discussed.
- 12. Ken St. Amour updated the Board on current activities related to the AMI project. It was noted that the majority of his staff time has been spent working with the telecom subcommittee and with other VPPSA staff to get the area maps updated so that those maps can be provided to Aclara to assist in determining where infrastructure is needed. Next steps include 1) working with Jackie Lemmerhirt to review the proposal that was provided to assist with both contract negotiation and the preparation of business case development for regulatory support, 2) negotiating pricing on meters, and 3) contacting each member to gather more specific information that is needed.

#### DRAFT

- 13. Chairman Beliveau mentioned that after a recent visit to Barton's hydro facility, it reminded him of the hydro resources the VPPSA members have and he wanted to discuss how VPPSA can facilitate more efficient deployment of staff and equipment to maximize the value of the member's hydro assets. It was noted that it would be beneficial if the utilities shared resources both within the utility community or through VPPSA by structuring a committee of hydro owners. The General Manager noted that VPPSA would set up an initial meeting to determine interest of the members.
- 14. The General Manager informed the Board that in the ISO's Internal Market Monitor's (IMM) quarterly report to both ISO and FERC it reported a finding that the transmission companies had been violating their tariffs for the past decade by not reconstituting loads for "behind the meter" generation. While it has been common practice throughout New England to calculate "Network Load" by excluding any load served by local generation such as net metering, Standard Offer, and in some cases small utility owned generation; however, if the IMM position gets codified it would mean we would need to add all of that generation back to the load we report to ISO-NE.

VPPSA is working with the other Vermont utilities and the DPS to assess the likely impact and to develop a united strategy. It is likely that the transmission owners will need to put forth some sort of response by the end of the year. The General Manager informed the Board that, whatever resolution is ultimately adopted, it is likely that the issue will be litigated at FERC. VPPSA will need to be prepared to participate in that litigation.

- **15.** The General Manager provided a brief update on the status of Barton. It was noted that VPSPA continues to respond to Barton's data request, VPPSA staff met with HomeTown Connections to begin the value of public power analysis and representatives from Lyndonville and Swanton attended a Barton Hydro site visit with VPPSA staff to assess whether VPPSA was interested in submitting a purchase proposal to Barton.
- **16.** Director Jones made a motion to find that premature general public knowledge of the Authority's discussions and/or negotiations with potential counterparties would place the Authority in a position to suffer a substantial disadvantage because it would expose proposed terms of the contract negotiations. The motion was seconded by Director Fitzhugh. The motion was approved.

Director Jones made a motion to enter executive session to discuss contract negotiations as allowed under the provisions of Title 1, Section 313 (1)(A) of the Vermont Statutes. The motion was seconded by Director Fitzhugh. The motion was approved.

The Board entered Executive Session at 12:04 p.m.

The Board returned to open session at 12:46 p.m.

No action was taken.

17.Other Business.

None.

The meeting was adjourned at 12:46 p.m.

Respectfully submitted,

# Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item #6 - Resolution 2020-11

As discussed at the October Board meeting, VPPSA has been approached by a new manufacturing company looking to locate in Lyndonville's territory. This new company had previously been working with GMP to determine if Renewable Energy Standard Tier 3 credits might apply to their project and if so whether GMP could offer an incentive. GMP had confirmed the Tier 3 applicability and offered a \$400,000 incentive.

When the company identified a possible location in Lyndonville's territory they reached out to see if VPPSA could match the incentive GMP had offered. VPPSA staff has confirmed GMP's calculations and believes the incentive would be a good investment for VPPSA members. It has the potential to fully meet member Tier 3 obligations for several years at an average cost of roughly \$10/credit versus the roughly \$30/credit cost VPPSA is paying for other measures.

However, given the high up-front cost staff is proposing that VPPSA itself pay the incentive and acquire the credits in a VPPSA inventory account. The credits would then be sold to members at cost as they are needed.

The attached Resolution 2020-11 would authorize the General Manager to commit to the incentive and to make the payment if the manufacturing company fulfills its commitments. It would also authorize the General Manager to proceed with a financing arrangement if he and the Controller feel it is appropriate in the context of VPPSA's broader financial condition.

#### Motion:

Motion to accept Resolution 2020-11 Glavel Inc. as presented.

# Vermont Public Power Supply Authority

### **BOARD RESOLUTION 2020-11**

Glavel Inc. Renewable Energy Standard Tier 3 Incentive

Whereas, Glavel Inc. has expressed an interest in located a new manufacturing operation within Lyndonville Electric Department's service territory; and

Whereas, Glavel Inc. is considering installation of either an electric or gas fired glass kiln at the proposed location; and

Whereas, an incentive from VPPSA would influence Glavel Inc.'s choice of an electric kiln instead of a gas kiln; and

Whereas, based on previous discussions with Green Mountain Power Glavel Inc. based their financing structure upon a \$400,000 incentive level and has asked VPPSA if it could provide an equal commitment if Glavel chose the Lyndonville location; and

Whereas, VPPSA's preliminary analysis of the Tier 3 credits from the proposed project indicate that VPPSA members would receive 39,775 Tier 3 credits in return for the incentive payment resulting in a net cost per credit of \$10.06; and

Whereas, the incentive payment is in excess of the level of any individual VPPSA member would be willing to contribute; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

- 1. The General Manager is authorized to provide a commitment letter to Glavel Inc. expressing VPPSA's agreement to provide the \$400,000 incentive provided the project is developed in the manner described to VPPSA staff and in a manner that provides VPPSA with the anticipated Tier 3 Renewable Energy Standard credits.
- 2. The General Manager is further authorized to provide the incentive payment utilizing VPPSA funds, utilizing VPPSA's fund balance, line of credit, or other borrowing as the General Manager and Controller deem appropriate.
- 3. VPPSA will retain any credits received for the benefit of any member utility in meeting their future Tier 3 requirements with any member utilizing credits being charged for them at the time of utilization.
- 4. The price charged to any member utilizing the credits shall reflect the associated cost of the incentive paid to Glavel Inc. plus any associated financing costs accrued to that point.

Adopted by the Board of Directors This 4th day of November, 2020

ATTESTED: Crystal L Currier

Crystal Currier Secretary

www.vppsa.com

P.O. Box 126 • 5195 Waterbury-Stowe Rd. • Waterbury Center, VT 05677 • 802.244.7678 • Fax: 802.244.6889

### Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item #7 - Project 10 Backup Generator

As the Board is aware, VPPSA included installation of a backup generator in the Project 10 capital budget last year in the amount of \$250,000. Dave Gagne proceeded to move the project forward in 2020 and brought a proposal to the Board for consideration. At that time several questions were raised regarding the need for the generator, whether the 250kW proposed was the proper size, and whether the projected cost was realistic.

As a result of these question I decided to step back and utilize the contract we had just signed with Dave DeSimone to take a deeper dive into the project. Dave DeSimone and Dave Gagne have spent the last several months re-evaluating the project, and we now have a revised proposal for Board consideration.

#### Need

As to the need for the generator, there are two key drivers:

- 1) Project 10 is a blackstart unit under the ISO markets and as such we are obligated to be able to start the unit under the most sever system conditions. With the increasingly unpredictable whether Dave Gagne is becoming increasingly concerned that the unit would not be able to withstand a long-term event and still start. Since under a full blackout scenario Project 10 would have no outside power the entire operation, as configured today, would rely on the backup batteries. If an outage lasted multiple days in the winter the need to run heaters, pumps, controls, etc. could jeopardize startup.
- 2) Just as importantly for me, VPPSA is utilizing Project 10 more and more as our backup/emergency site. Our backup computer systems are located at Project 10 and one of the projects we are working on for FY21 is to add office space at Project 10 as a location staff could operate from under emergency conditions. To make this viable access to power would be necessary.

### Size

Dave DeSimone put the project out to bid. Three firms looked at the project although only one chose to formally submit a bid. As part of the review process the bidders were asked to confirm the size of the generator needed. Responses received

were that a minimum 200kW generator was appropriate and to accommodate future load growth a 250kW generator would be appropriate.

### <u>Price</u>

As noted, the capital budget contained \$250,000 for this project. The bidder who submitted a formal proposal after reviewing the project was Pratt & Smith based in Milton, VT. For the 250kW unit their proposal was to install a Milton Cat generator with associated transfer switch.

Pricing was \$133,850 for the generator and installation plus \$9,000 for an upgraded transfer switch and enclosure. There remain some question about whether the ground grid will need to be modified as part of the project so staff has added a 10% contingency to the bid, making the total project budget \$157,135.

### <u>Timing</u>

Pratt & Smith indicates the generator could be delivered in February and they feel that substantial ground work could be completed this year, if VPPSA gives authorization to move forward. Installation would be completed by spring 2021.

#### Motion:

Motion to approve the backup generator project as presented, award the bid to Pratt & Smith, and authorize the General Manager to take all steps necessary to move the project forward.

### PRATT & SMITH, INC. ELECTRICAL CONTRACTORS

578 Route 7 South – Milton, VT 05468 TEL. (802) 893-1437 FAX (802) 893-1438 E-MAIL: prattandsmith@comcast.net

Date: October 23, 2020 Quote# R102320-01

To: David DeSimone

Project: 101 Lafar Street, Swanton Generator

Subject: Electrical Quote

We are pleased to provide the following electrical quote for the project listed above.

#### Scope of Work:

Install a 480Y/227 volt standby generator and electrically operated non-automatic transfer switch to serve 1 of the 2 existing electrical services

- Remove conductors as necessary, intercept existing conduits serving building and reroute into transfer switch
- Install new conductors from utility transformer to transfer switch
- Reinstall removed conductors from transfer switch into building
- Install generator on concrete pad and feeders from generator to transfer switch
- Install remote annunciator inside building
- Supply generator enclosed panel with a 60-amp 120/208 volt feeder from the building
- Make all final connections
- Excavation, concrete work and crane for offloading generator is included

#### **Exclusions:**

Utility company fees

#### Notes:

- Price based on work to be completed during normal working hours 7:00am 3:30pm M-F
- Quote is contingent on current grounding and bonding arrangement in existing service switchgear being acceptable to the electrical inspector.
- It is assumed existing grounding and bonding will not cause nuisance tripping of the transfer switch ground fault protection. A \$2,500 allowance has been included for an engineering review prior to installation

Lump Sum Price 250 KW Generator Installation: \$133,850.00

Lump Sum Price 200 KW Generator Installation: \$117,320.00

Substitute 1200-amp transfer switch in NEMA 3R enclosure with 1600 amp in NEMA 4X enclosure Add: \$9,000.00

Quote is valid for 30 days.

Thank you for the opportunity to provide this quote. Feel free to call with any questions.

#### **Alternate 250 kW GC Series Product with Sound Attenuated Enclosure:**

One (1) New Outdoor Caterpillar Model D250GC Diesel Packaged Generator Set. This unit is rated 250 KW, Standby power, 2477/480 volt, 60 hertz, 1800 rpm, Three phase, 0.8 pf. The following equipment/services are included:

- UL 2200 Listed and Labeled
- EPA Certified for Stationary Emergency Application
- Permanent Magnet Generator
- · Electronic Governor
- · Unit Mounted Radiator
- Jacket Water Heater
- Vibration Isolators
- Starting Batteries with Rack and Cables
- 10 Amp Battery Charger
- Charging Alternator
- Engine/Generator Unit Mounted Control Panel
- One Remote Annunciator Panel, 16 Light NFPA 110 ships loose
- Remote Lockable Emergency Stop Station (EPO Station) ships loose
- Remote Communications via RS485 port (interface to BMS or SCADA by others)
- 545 Gallon (28 hours of run time at 100% load) Fuel Tank, Double Walled w/Leak Detection, UL142 Listed
- 400 Amp Unit Mounted Circuit Breaker
- Enclosure Painted Steel Factory installed Sound Attenuated, Color- White
  - 74 dBA @ 23'

Thermal/acoustic insulation

Mounted on fuel tank base above

- Interior muffler with rain cap
- Non-Automatic Transfer Switch Electrically Operated Service Entrance Rated:
  - Quantity 1, 1200 ampere, 3 pole, open transition, NEMA 3R enclosure with strip heater and programmable engine exerciser
- Standard factory & production testing
- Start-up and Test With Milton Cat supplied Load Bank
- Customer Training at Start-Up
- 2 Year Warranty from Date of Start-Up
- Operation and Maintenance Manuals

#### Please Note:

Type 3R enclosures provide a degree of protection against falling rain or snow, but may not be suitable for outdoor applications involving wind-blown rain or snow without a separate or supplemental shelter.

#### Option

Provide a 1600 Amp NEMA 4X enclosed automatic transfer switch for the 1200 Amp, NEMA 3R. ASCO does not make a 1200 Amp NEMA 4X.

### Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item #8 - RES Tier 3 Custom Project Policy

At the October meeting the Board discussed revisions to how VPPSA handles "Custom" RES Tier 3 projects to move the up-front financial obligations to VPPSA and to include funding in the VPPSA RES project budget to cover custom projects, rather than relying on the host utility to fund these projects as they materialize.

You may recall that staff was proposing these changes to alleviate the financial hurdles that had been problematic in moving several projects forward. Under the existing structure host utilities had been asked to fund significant (tens of thousands of dollar) financial incentives in the middle of budget cycles that had not anticipated such expenditures.

The Board was supportive of this changed approach but requested more clarity on how decision would be made under the new structure. Staff is still developing a policy to propose but wanted to discuss general concepts with the Board before proceeding further. The general framework under consideration would be as follows:

- The VPPSA RES Project budget will assume a base level of "prescriptive" (rebate based) measures designed to coordinate with Efficiency Vermont and meet the member obligations to operate diverse programs under the RES statute. These measures will be funded proportional by all members and the resulting credits will be allocated to all members proportionally.
- Any obligation not expected to be met under the prescriptive program will be assumed
  to be met through custom projects. Each year VPPSA will determine the amount each
  member is expected to fall short of its obligation after accounting for previously banked
  credits and any allocation from the prescriptive program.
- VPPSA will then estimate the per credit cost of achieving custom projects and collect funds from each member that is projected to be short of its obligation based on this estimated custom price.
- VPPSA will proceed to seek custom projects and will make incentive commitments to move projects forward. The General Manager or his designee will have authority to commit to specific projects without further Board action so long as:

- o The total projected expenditure by VPPSA in a fiscal year does not exceed the approved budget.
  - This could include moving funds from the prescriptive program to the custom program if the prescriptive program is projected to not meet its targets.
- o The price per credit associated with any individual project does not exceed the assumed price per credit in the approved budget
- Any commitment does not result in VPPSA needing to enter a loan agreement to make the payment. This includes any commitment requiring VPPSA to utilize its line of credit.
- If custom projects exist that staff feels should be funded, but doing so would trigger one or more of the above restrictions then the project will be brought before the Board for consideration.
- Nothing in this procedure will prohibit the host utility from funding projects directly if they so choose and having all of the associated credits assigned to them directly.

The Board's feedback on this concept would be appreciated before staff moves to document it in a formal policy for Board approval.

# Table of Contents: Retail Sales Data Tracking & Reporting

- Background 6 Our Anticipated Response
- 2 Many Uses of Sales Data 7 Tradeoff
- Goal: Consistent & Timely Data 8 Other Reasons to be Proactive
- 4 What Changed this Year?
- **5** Establish Data Release Deadline

# Background

### We are reviewing tracking & reporting process:

- Why?
- Use of retail sales data has become more widespread & is being used in more ways that affect you financially
  - Retail sales <u>kWh</u> data matters as much as, if not more than, dollar data

### We rely on you for all of the information:

- We've had a fairly relaxed data collection process to date anchored by "DPS report" (more on that later)
- There have been inconsistencies across members

# Many Uses of Retail Sales Data

# Where does retail sales data get used?:

- Reports
- Cost Allocations and Cost Determinations
  - All based on prior year data

## Many Uses of Retail Sales Data

### Reports:

- Shown in Table 1
- At least 5 routine reports
- Submitted either by you (your finance staff) or by VPPSA, over the course of the year
- Bottom of table shows where the reports get filed.
  - Mostly public places, available for anyone to see and use as a cross-reference to whatever other source of data they are looking at

# Many Uses of Retail Sales Data

### **Table 1 & Table 2 Data Destinations:**

- Data gets reported to at least 10 different entities
  - DPS
  - DPS uses information to report to Legislature
  - Energy Information Administration (EIA), <a href="https://www.eia.gov/">https://www.eia.gov/</a>
  - Efficiency Vermont (EVT)
  - ISO-NE
  - Municipal Electronic Database, <a href="https://emma.msrb.org">https://emma.msrb.org</a>
  - NEPPA
  - PUC, ePUC, <a href="https://epuc.vermont.gov/">https://epuc.vermont.gov/</a>
  - VEPPI, <a href="https://vermontstandardoffer.com/">https://vermontstandardoffer.com/</a>
  - VPPSA for internal planning

# GOAL: Consistent & Timely Data

# All kWh & dollars for your utility should be consistent across all reports & uses in Tables 1 & 2:

 Same data gets used in different ways and at different times over the course of the year creating places along the way where data could conflict if not finalized early on

# Need a specified deadline by when the kWh and dollars are deemed by you as final:

- Changes to the data because of incompleteness/errors mid-year can have monetary consequences for you and for other members
- Since the data is generally going to numerous public places, conflicting reported data could cost you money and damage your/our credibility
  - Example: VEPPI allocator
    - Change affected all utilities in VT not just the utilities that changed their kWh

# What Changed this Year?

### Small Electric Utility Annual Report (i.e., "DPS Report"):

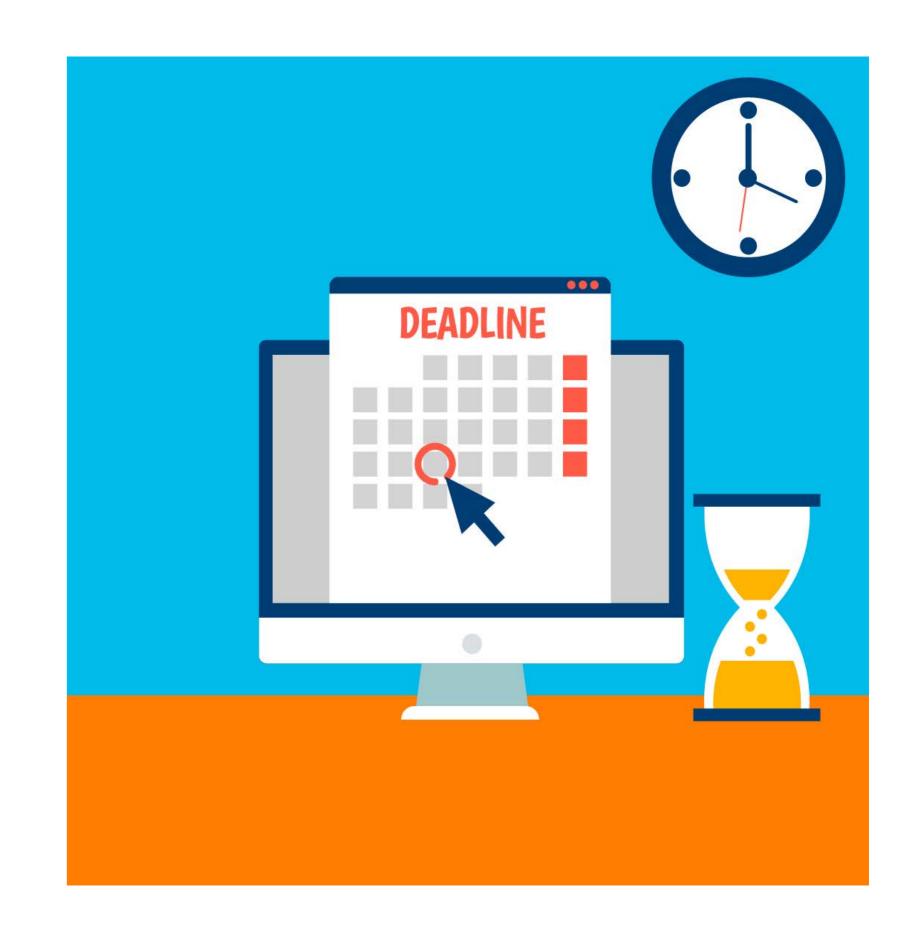

- Was <u>not</u> required by DPS for the 2019 reporting year
- Up in the air as to what will replace it going forward
- Used to provide a line in the sand for finalizing retail sales data by a certain deadline
- Used to be the sales data check figure/guidebook for us and a lot of other entities

We need something to replace these functions...

## Need to Establish a Data Release Deadline:

### What is the earliest we all need the data?:

- Mid-February
  - It appears to be the earliest the kWh data gets released into the world
- March 1
  - VPPSA needs kWh data for RES obligation by March 1

# Our Anticipated Response

### **Process:**

- Looking at developing a more structured process to ensure correct and consistent data
- Main features may include:
  - Monthly data collection template to collect data from you

APPROVED

- Stronger review loop and sign-off procedure prior to release of sales data
- Change management process
- A new written procedure
- Once we get a template in place, VPPSA will be able to assess methods for automating the data collection

### **Get input:**

• We plan to coordinate with your finance staff to obtain input on the process & data template structure

# Our Anticipated Response

### **Tradeoff:**

- Could/should VPPSA take on a larger role in reporting of retail kWh and revenue data for you?
- For instance
  - Prepare the EEU revenue requirement templates for all members?
  - Prepare whatever replaces the "DPS Report" (VPPSA already does the DPS Resource Survey)
  - Other?

## Other Reasons to be Proactive

# Other Reasons to be proactive about the sales data tracking and reporting:

- We are going to have new & more complex needs for the data in the future
- More process will be valuable to keep it all organized
- Accurate timely data may become even more important

## **Contact Info**

### Memorandum

To: VPPSA Board of Directors

From: Melissa Bailey

Date: October 29, 2020

Subject: Agenda Item #11 - Legislative and Regulatory Update

### 1) 2021 Legislative Session

- a) Staff are working with the VPPSA lobbyists to plan for the 2021 session. We have discussed this proposal with the Department of Public Service and are drafting a bill aimed at achieving rate flexibility for municipals.
- b) VPPSA is organizing "legislative breakfasts" with each member utility's local senators and representatives. These events are intended to better acquaint legislators with the concerns and perspectives of the VPPSA members.

### 2) Current PUC Proceedings

- a) Case # 19-2956 All Fuels The PUC will provide its final recommendations on this topic to the Legislature in January.
- b) Case # 19-3272 EVT Demand Resources Plan Proceeding EVT's Annual Budgets for 2021-2024 (\$55M/year) have been approved by the PUC along with the VPPSA/EVT MOU.
- c) Case # 20-0097 Net Metering Biennial Update We await a PUC Order in the proceeding to update net metering compensation levels which occurs every two years.
- d) Case # 20-0703 Disconnect Moratorium The Moratorium expired on October 15<sup>th</sup> and the PUC issued an Emergency Disconnect Rule (2.600) to remain in effect for 6 months. The Department of Public Service has recommended that the PUC approve the revised Disconnect Notices the VPPSA members filed in compliance with Rule 2.600.

### 3) Efficiency Vermont Coordination and Tier 3

- a) VPPSA staff have drafted a budget for meeting the 2021 Tier 3 obligation through Prescriptive and Custom Programs. Several Custom projects have been completed in 2020.
- b) Staff continue to work closely with EVT staff on program coordination to provide Tailored Services to 3 VPPSA member utilities in 2021.
- c) EVT has completed its revisions to VPPSA member quarterly reports. After data verification these reports will be shared with the members.

### Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item #12 - AMI Update

Staff has now received the proposal from Jackie Lemmerhirt to help VPPSA reach a final contract with the chosen AMI vendor.

Ken St. Amour is beginning to pull together the negotiating team and to gather the detailed information needed to request an initial contract draft from the vendor. This includes preliminary choices regarding communication (i.e. PLC or RF) and specific information on the quantity of each meter form factor to be purchased.

Ken will be able to provide a more up-to-date status report at the Board meeting.

www.vppsa.com

P.O. Box 126 • 5195 Waterbury-Stowe Rd. • Waterbury Center, VT 05677 • 802.244.7678 • Fax: 802.244.6889

### Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item #13 - Barton Update

As requested, staff is leaving this item as a standing agenda item.

No additional updates are warranted other than that the Barton Trustees are considering ongoing participation in the VPPSA AMI and GIS projects in relation to discussions underway with VEC. It is unknown at this point how those discussion might affect Barton's participation.

As the Board is also aware, VPPSA has targeted Barton, Jacksonville, and Ludlow for the first year of our new MOU with Efficiency Vermont to roll out "tailored" programs. The Trustees have agreed to participate in this effort and planning is beginning.

www.vppsa.com

P.O. Box 126 • 5195 Waterbury-Stowe Rd. • Waterbury Center, VT 05677 • 802.244.7678 • Fax: 802.244.6889

### Memorandum

To: Board of Directors

From: Ken Nolan, General Manager

Date: October 30, 2020

Subject: Agenda Item Executive Session

#### There are three items to discuss in Executive Session:

- 1) Broadband Status this is a brief item to bring the Board up to date on the RDOF auction and the status of VPPSA's participation
- 2) Potential 5-year purchase VPPSA's existing 5-year purchase of Seabrook nuclear power from Nextera ends in 2022. Based on recent market prices staff believes that now may be an opportune time to lock in the next 5-year period (2023 to 2027). Shawn has obtained bids from several parties for this period and the initial review looks favorable, so staff will be presenting the initial results and looking for Board reaction to moving forward to finalizing contracts.
- 3) Barton Hydro As noted previously several VPPSA members and staff attended a site visit of Barton Hydro with the idea of VPPSA putting forth a purchase bid. With the ISO-NE ongoing open question about load reconstitution for behind-the-meter generation developing a bid is challenging, but staff would like to review the status and discuss the Board's interest in proceeding at this point.

### 2023 - 2027 Energy & REC Indicative Prices

### **Overview**

• **EXPIRATION**: The NextEra 2018-2022 contract expires on 12/31/22.

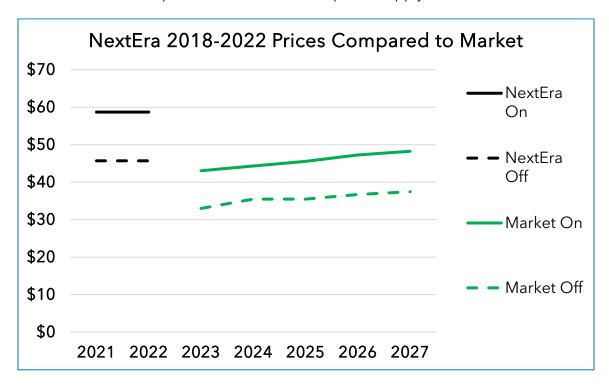

• VOLUME: It represents a significant part of VPPSA's power supply.<sup>1</sup>

At 17 MW on-peak and 12 MW off-peak, it is the single largest

resource in some member's portfolios.

• PRICE: Market energy prices are presently lower than the prices in the

NextEra 2018-2022 contract. As a result, buying replacement power now could reduce power supply costs in the future.

### **Two Options**

1. **Extend NextEra**: NextEra has provided indicative prices 2023-2027.

2. Firm Hydro + RECs: Brookfield, Arclight, and Hydro Quebec have provided

firm energy + Tier I REC prices 2023-2027.

<sup>&</sup>lt;sup>1</sup> Swanton is the only VPPSA member who does not participate in the NextEra 2018-2022 contract.

### **Things to Consider**

• LOCATION: All offers are delivered to either the MA HUB or VT Zone.

• FIRMNESS: All offers are for firm power. There is no intermittency risk.

• **RECs**: The NextEra proposals include emissions-free nuclear attributes,

at a near-zero cost. This increases Tier III project energy savings.

The hydro proposals include VT Tier I / ME Class II RECs for a modest and attractive price premium. This also increases Tier III

project energy savings.

This compares to:

Tier | Alternative Compliance Payment = \$10.00/MWH Tier | Market Price = \$1.50/MWH

• **VOLUME**: The MW volumes being quoted are different because the 2019

Planned Purchase spans June 2024.

As a result, the final volumes for 2023-2024 will be lower than

the 2025-2027 volumes.

• **PRICE**: Pricing will change based on final volumes and market

conditions at the time of contract execution.

### Recommendation

Purchase firm hydro + RECs for 2023-2027 from either Brookfield or Arclight.

<u>Step 1</u>: VPPSA will finalize MW volumes by Member.

<u>Step 2:</u> VPPSA will send letter agreements to each member to get approval for the recommended volumes, including a not-to-exceed price that is less than or equal to the pricing in the existing NextEra PPA.

<u>Step 3</u>: VPPSA will get final, firm pricing from Brookfield and Arclight using the member-approved MW volumes.

<u>Step 4</u>: Sign a new PPA for 2023-2027 energy + RECs.
